The Most Engaging Gamer Platform, Ever

Wasder makes it possible for gamers to engage in their passion by providing the tools that bring us together. All in one personalized space.

Currently we have over 100,000 users.

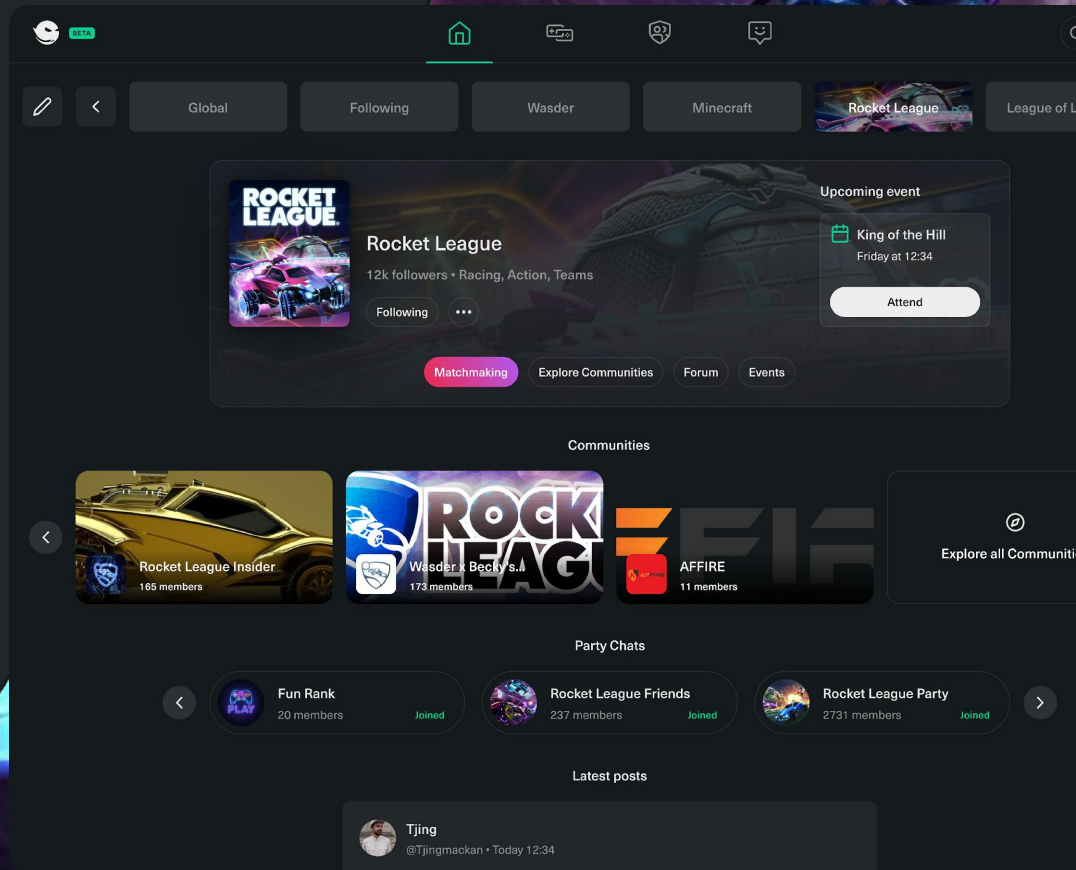

Coming & existing features

- Personalized content feed and designated game spaces.
- Matchmaking – Find people to play your game with.
- Party chats with voice.
- Find, manage and create communities.
- Event system for players and communities.

Bringing old and new friends together around their passion for gaming.

The core idea of Wasder is to make gaming personal for you, to fulfill people's need of being part of a group for shared identity. Here we give an overview and ignite conversations around your community of interest, such as a game or a genre.

A Truly Unique Blockchain Gaming Experience

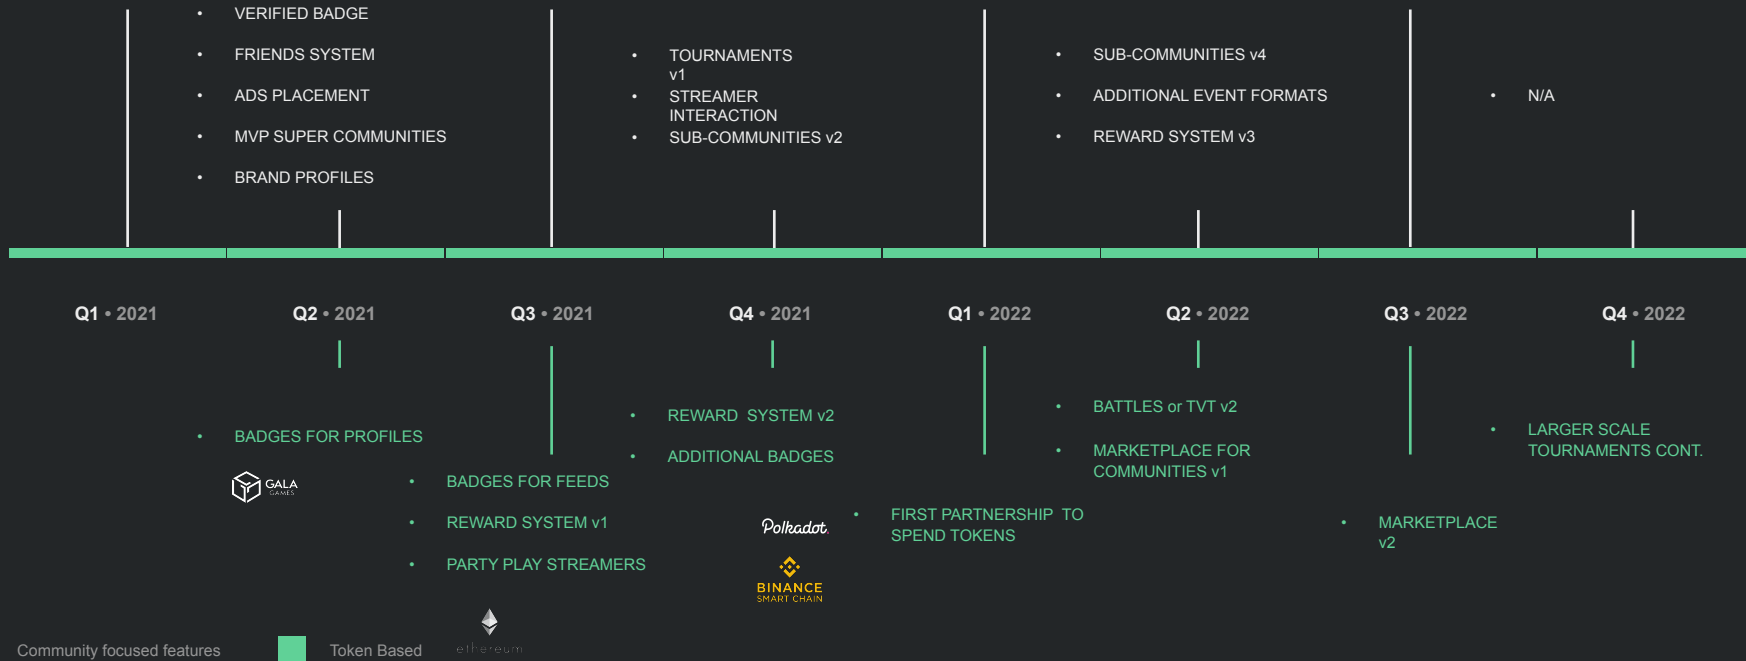

- Wasder will leverage Ethereum, Binance Smart Chain, Polkadot and other blockchains in a multi-chain environment to build:
- First of its kind NFT Unlockable Gaming Event Cards (unlock access via NFT purchase).
- Blockchain and Tokenized Events.
- In-App token payments for smooth operation.
- Gamified Airdrops and Token Rewards for use in-app.
- Leveraging strategic partnerships with other blockchain gaming ecosystem partners like Gala Games and more.

High level roadmap

- MOBILE APP LAUNCH
- PARTY PLAY (Matchmaking)
- IMPROVED USER PROFILES
- POC SUPER COMMUNITIES
- SUB-COMMUNITIES v1
- EVENTS/CALENDAR
- ADDITIONAL AD PLACEMENT
- BATTLES or TvT v1
- TOURNAMENTS v2
- SUB-COMMUNITIES v3
- LARGER SCALE TOURNAMENTS
- MONETIZATION FEATURES

Wasder – Incentive system

Wasder – Reward system

The Wasder token ecosystem was created to incentivize you - the user - to continue using existing, and testing new functionality. Think of it as a circular economy, with a whole bunch of exciting ways to both earn and spend tokens.

For the content creators, we are currently exploring ways to get rewarded from fans for all your hard work. In the true spirit of Wasder, this also means there will be ways to give back to the fans and the community to make it truly circular.

Here are some of the plans we are working on (subject to change):

- Spending \$WAS:
 - Participate in VIP events (Influencers, e-sport teams, streamers) - Think NFT tickets
 - Cosmetic upgrades in the platform (avatars, frames, badges) - NFTs and personalized looks
 - Tip/pay your favorite content creators on the platform - inspire them to create more
 - Battles - challenge other gamers to in game battles
- Earning \$WAS:
 - Perform various actions in the platform - more details to come
 - Hosting tournaments/events - bring all your friends (and enemies)
 - Be a content creator and get rewarded for great content
 - Rank high on community leaderboards and earn rewards
 - Defeat communities/guilds in battles and tournaments

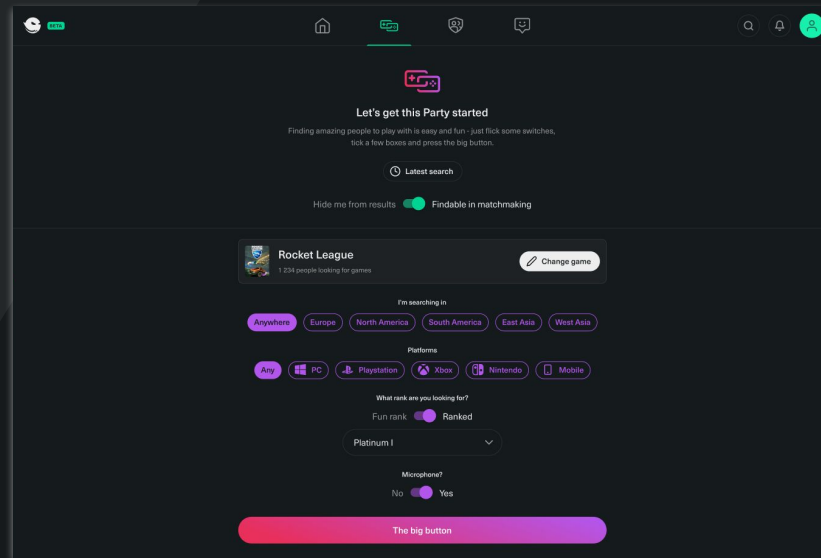

Wasder – Party Play

Wasder – Party Play

Wasder Party Play is the first of its kind! Our first version is already released on mobile.

- **Game agnostic** - you can find players in any game, on any platform
- Additional functionality that we are exploring:
 - **Party Play for streamers:** Find other streamers to collaborate with for shared audiences and growth.
 - Match into existing Party Chats/Groups!
 - Russian Roulette - Except nobody dies.

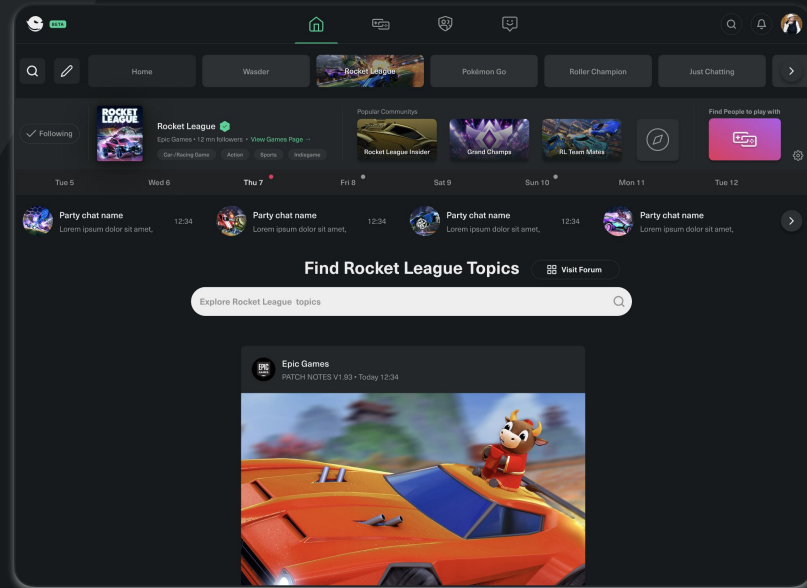

Wasder – Spaces (2/2)

Wasder – Spaces: All content for your favorite games in one place

We're certain that our spaces will host some really cool games, teams, guild and brands.

- The brand/publisher spaces will be managed by the Brands/Publishers and will be similar to Game Spaces, but have customization options. In addition it will include:
 - Connect to Game Profiles
 - Connect Official profiles
 - Connect to selected Party Chats and Communities
 - Voice Panels
 - Events hosted by the Brand/publisher
- The type of Spaces could be:
 - Publishers
 - Brands
 - E-sport teams
 - Indie studios

Tokenomics Detail

Supply	% of Total Supply	Number of Tokens	Vesting Period
